North Dakota			
Ohio	Carolyn Watkins (614)644-3768 carolyn.watkins@epa.ohio.gov	Ohio EPA	Ohio has created a map of proposed priority counties to receive the funds. Counties were selected based on areas with historical air quality problems related to diesel emissions, the location of large ports. In November Ohio sent a request to more than 23,000 entities for early stakeholder comments on the map and indications of interest in the potential allowable uses of the funds. At this point, Ohio is open to all ten allowable uses. To date, the state received 160 comments that are currently under review and is also setting up meetings or conference calls with some groups of stakeholders, such as ports and major airports. Ohio is preparing documentation to request beneficiary designation and beginning to draft a mitigation plan.

Virginia	vwmitigation@deq.virginia.gov DEQ Air Division	Department of Environmental Quality	Virginia developed a proposed state mitigation plan in 2016 intended to provide the public with insight into the Commonwealth's vision for the eligible uses of the VW Trust mitigation funds. The state conducted a public comment period (Nov 17 - Dec 16, 2016) and meeting (Dec 7, 2016) on the proposed mitigation plan. Virginia received 101 comments on the proposed mitigation plan that are currently under review. To further inform the state's planning efforts, Virginia released a Request for Information (RFI) in April 2017 seeking early input from governmental and non-governmental entities on the type and scope of projects that they may later submit to compete for VW Trust funds, funding and project evaluation priorities, and methods the state could employ to increase participation in future requests for VW mitigation projects. http://www.deq.virginia.gov/Programs/Air/vwmitigation.aspx
